Department of Pathology

Academic Perinatal Pathologist

The Department of Pathology, Northwestern University Feinberg School of Medicine, invites applications for a non-tenured full-time anatomic pathologist with subspecialty training in perinatal pathology at the level of Assistant, Associate or Full Professor. Responsibilities include excellence in clinical diagnostic service and teaching in perinatal pathology, and could also include service in adult autopsy pathology, pediatric surgical pathology or gynecologic pathology. The successful candidate will have a strong track record of productivity and scholarship in perinatal pathology. The candidate will join an existing team of perinatal and autopsy pathologists, who together examine over 3500 placentas, 80-100 perinatal autopsies, and 150-175 adult autopsies per year. Pediatric surgical pathology service at Lurie Children’s Hospital or gynecologic surgical pathology service at Northwestern Medicine are additional options for the appropriate candidate. In addition to clinical responsibilities and research, faculty is expected to play an active role in teaching and training medical students, residents, and fellows.

Qualified candidates must hold MD or MD/PhD degrees and be board certified in AP or AP/CP from the American Board of Pathology, as well as be eligible for an unrestricted medical license in the State of Illinois.

Interested applicants should submit an application and include letter of interest, curriculum vitae, and names of three to five references via Northwestern University’s Faculty Recruiting Website.

The start date is negotiable and the position will remain open until filled.

Northwestern University is an Equal Opportunity, Affirmative Action Employer of all protected classes, including veterans and individuals with disabilities. Women, racial and ethnic minorities, individuals with disabilities, and veterans are encouraged to apply. Hiring is contingent upon eligibility to work in the United States.
