The Department of Pathology at Northwestern University Feinberg School of Medicine seeks a full-time non-tenure-eligible Clinician-Educator at the rank of Assistant or Associate Professor. The role will collaborate with other bioinformatics centers within Northwestern University, Feinberg School of Medicine as well as the Director of Genomic Pathology to expand the division and improve patient care at Northwestern Memorial Hospital through personalized precision medicine. Responsibilities include the design and implementation of advanced computational tools for high-throughput analysis of multiple types of disparate patient data. You will refine methodologies for data analysis, processing, visualization and storage.

Qualified candidates will hold a PhD or an MD/PhD in a relevant field and experience in computational biology, molecular diagnostics, and/or genomic medicine.

The start date is negotiable and the position will remain open until filled.

When applying, please upload a CV and cover letter describing your interest and alignment with the position. Also upload this completed list of references form to suggest the names of individuals who could write letters of reference on your behalf.

The environment for hypothesis driven basic research, and for translational and collaborative research at Northwestern University and the Northwestern Memorial Hospital is outstanding. Interested applicants should submit a letter of interest and curriculum vitae via Northwestern University’s Faculty Recruiting Website.

Northwestern University is an Equal Opportunity, Affirmative Action Employer of all protected classes, including veterans and individuals with disabilities. Women, racial and ethnic minorities, individuals with disabilities, and veterans are encouraged to apply. Hiring is contingent upon eligibility to work in the United States.
