The Department of Pathology at Northwestern University Feinberg School of Medicine seeks a full-time tenure track Investigator at the rank of Assistant, Associate, or Full Professor. Responsibilities include establishing a dynamic, independently funded research program in areas of scientific strength within our Department, which include epithelial barrier biology, tumor immunology and inflammation, while working synergistically and collaboratively with other investigators in the department. Expertise in single cell analysis, bioinformatics and computational/systems biology would be viewed favorably. Successful applicants are expected to participate in medical and graduate student teaching. High quality laboratory space and excellent start-up support are provided.

Qualified candidates will hold a PhD, MD, or MD/PhD degree and be scientists or physician-scientists with outstanding research accomplishments and with a record of success in competing for independent research funding. Rank and remuneration determined by qualifications and experience.

The start date is negotiable and the position will remain open until filled.

The environment for hypothesis driven basic research, and for translational and collaborative research at Northwestern University and the Northwestern Memorial Hospital is outstanding. Interested applicants should submit a letter of interest and curriculum vitae via Northwestern University’s Faculty Recruiting Website.

Northwestern University is an Equal Opportunity, Affirmative Action Employer of all protected classes, including veterans and individuals with disabilities. Women, racial and ethnic minorities, individuals with disabilities, and veterans are encouraged to apply. Hiring is contingent upon eligibility to work in the United States.
