

The image shows a close-up of the Northwestern University seal, which is a circular emblem featuring an open book and the university's name. The seal is set against a background of a wooden surface with a purple diagonal overlay on the left side.

Northwestern University Feinberg School of Medicine

Department of Pathology Presents

The Department of Pathology at Northwestern University Feinberg School of Medicine seeks a full-time non-tenure-eligible Clinician-Educator at the rank of Assistant, Associate, or Professor. A successful candidate will display excellence in diagnosis and teaching in GI, liver and pancreatobiliary pathology as well as have a record of demonstrated productivity and scholarship in this area. Experience in general surgical pathology or other subspecialty areas is a plus. The Surgical Pathology division offers subspecialty sign out and works closely with other divisions of the department including hematopathology, cytopathology, neuropathology and diagnostic molecular pathology. In addition to clinical responsibilities and research, faculty are expected to play an active role in teaching and training medical students, residents and fellows. The Feinberg School of Medicine offers outstanding opportunities for translational research, and candidates with interest and experience in experimental pathology are especially encouraged to apply.

Qualified candidates will hold MD or MD/PhD degree and be board certified in Anatomic Pathology or Anatomic and Clinical Pathology by the American Board of Pathology. Eligibility for an unrestricted medical license in the State of Illinois is required. Fellowship training or other significant experience in gastrointestinal pathology is required. Rank and salary will be commensurate with qualifications and experience.
