Recent Research Awards Received by Residents

1. **2nd place, Chicago Pathology Society Resident Research Competition**
   
   “Aggressive Morphologic Variants of Mantle Cell Lymphoma Demonstrate Frequent Mutations of TP53, Loss of CDKN2A/B and Chromothripsis” Lukas Streich, MD and co-authors.

2. **2nd place, Chicago Pathology Society Resident Research Competition**
   
   “Significant Impact of Highly Active Antiretroviral Therapy (HAART) on Morphologic Progression of High-Risk HPV Anal Squamous Dysplasia in HIV-infected Patients.” **Katrina Krogh, MD** and co-authors.

3. **Runner-up for Jerome H. Strauss Award from Binford-Dammin Society of Infectious Disease Pathology** (best poster or presentation by a pathology trainee as primary author at the annual USCAP meeting)
   
   "Significant Impact of Highly Active Antiretroviral Therapy (HAART) on Morphologic Progression of High-Risk HPV Anal Squamous Dysplasia in HIV-infected Patients." **Katrina Krogh, MD** and co-authors

4. **The Women Faculty Organization Award for Excellence in Women’s Health Research (Clinical Research/Education/Public Health category), Feinberg School of Medicine Fourteenth Annual Lewis Landsberg Research Day**
   
   “Histologic and Molecular Analysis of Hydropic Leiomyoma: A Variant of Leiomyoma Closely Related to HMG12 Overexpression,” **Brannan Griffin MD**, Xiuhua Xu PhD, Xinyan Lu MD, and Jian-Jun Wei MD.

5. **3rd place, Chicago Pathology Society Resident Research Competition**
   
   “Mutation spectrum of KRAS gene in colorectal adenocarcinomas using next generation sequencing: a single institution large cohort.” **Ryan Jones MD PhD**, Andrew Bandy MD, Audrey Deeken-Draisey MD, Jie Liao, MD, Leyu Sun, Juehua Gao MD PhD, Guang-Yu Yang MD PhD. February 2018

6. **2nd place, Chicago Pathology Society Resident Research Competition**
“Reflex Alternate Reference Probe D17S122 in Double (IHC and FISH) Equivocal Invasive Breast Carcinomas May Aid in Establishing True HER2 Status” Brannan Griffin MD, Jennifer Pincus MD, Kalliopi P. Siziopikou MD PhD and Luis Z. Blanco Jr. MD. February 2017

7. **1st place, International Society of Dermatopathology Trainee World Cup**

"Genomic Assessment of Blitz Nevi Suggests Classification as a Subset of Blue Nevus Rather Than Spitz Nevus: Clinical, Histopathologic, and Molecular Analysis of 18 Cases.” Christina Isales MD, Pedram Gerami MD. 2017

8. **Best Poster Award, 20th Joint Meeting of the International Society of Dermatopathology**

“Microcystic Adnexal Carcinoma Presenting as a Subareolar Breast Mass with Lung Metastasis: A Rare Presentation with Next Generation Sequencing Mutations.” Tim Tan MD, Megan Sullivan MD, Joan Guitart MD, Luis Blanco. March 2017

9. **3rd Place Award, American Society of Dermatopathology Duel of Dermatopathology Abstract Competition**

10. **Best Poster Award, 19th Joint Meeting of the International Society of Dermatopathology**

“Elastic Staining in Differentiating Between Follicular Streamers and Follicular Scars in Horizontal Scalp Biopsy Sections” Tim Tan MD, Joan Guitart MD, Pedram Gerami MD, Pedram Yazdan MD. March 2016
